MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW: The year under review continued to present a mixed picture in so far as the global economic trends were concerned. India's economic growth rate during the financial year 2016-17 was 7.1 percent as compared to the previous year of 7.6 percent. With fall in Government's Fiscal deficit in FY17 to 3.5 percent from 3.9 percent in FY16, the fiscal balance has improved. According to RBI, the GDP growth estimates of Central Statistical Organization, for FY 2016-17 already project a robust pick up. India just needs to balance the short term imperative boosting public investment to revitalize growth with the need to maintain fiscal discipline.

INDUSTRY OVERVIEW: Your Company is a NBFC (Non-Banking Finance Company). This sector has evolved considerably in terms of its size, operations and entry into new areas of financial services and products. The regulatory framework has also undergone change. The revised RBI regulations for NBFCs have been formed with the purpose of strengthening the financial system. However, being a financial entity, your company is exposed to various risk arising out of interest rate movement and risks pertaining to liquidity, as any other financial sector player.

OPPORTUNITIES AND THREATS: Your Company as a NBFC is engaged predominantly in the business of investment. The future business prospects are closely linked and influenced by global events and hence there is an amount of uncertainty in the near term outlook of the stock market. The Company is mainly exposed to market risk (including liquidity risk), interest risk and credit risk. Your company is conscious of the same and the risk management practices followed by the Company over the years helped it to mitigate the normal industry risk factors, which inter-alia include economic/business cycle, fluctuation in the stock prices in the market, besides the interest rate volatility and credit risk. Improved sentiments in the secondary markets will also enhance the participation of investors across segments thereby helping the prospects of equity brokerage business.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE: Your Company is mainly engaged in investment activities, which is the only business segment. Segment-wise reporting is not applicable to your company.

OUTLOOK: After a prolonged economic slowdown during FY 2015-16 and FY 2016-17, the Indian economy has started showing signs of improvement in FY 2017-18. FY 2018-19 is expected to be a year of consolidation, so that the industry is ready for the next phase of growth. GDP growth is expected to improve on the back of proactive government initiatives and revival of commercial activity.

RISK AND CONCERNS: The Company's operation involves inbuilt risk due to uncertain economic condition and unforeseen events beyond the Company's control. The company appreciates the varied forms of risk inherent in our industry and we continue to scrutinize our risk management system.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY: The Company's internal control systems are commensurate with the nature of its business and the size and complexity of its operations. Clearly defined roles and responsibility for managerial positions gives strength to the internal control system of the organization. The Company believes that transparency of policies and operation and systems and control are keys to the success of any organization. Additionally, we have set up adequate internal controls and systems to ensure that the Company is functioning in a balanced way and that any conflicting occurrences are taken care of. The management duly considers and takes appropriate action on the recommendations made by the statutory auditors. Key issues are specifically brought to the attention of the Audit Committee and deliberated and in details along with the action plan.

HUMAN RESOURCES: The Company's success depends largely upon the quantity and competence of its management team and key personnel. We lay a strong emphasis on integrity, teamwork, innovation, performance and partnership. The Company has adequate and experienced professionals having varied experience related to the Industry to carry out its various operation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not to be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.
